

BRIEF

Spring-cleaning is the annual practice of thoroughly cleaning a house from top to bottom, which would take place in the first warm days of the year typically in spring.

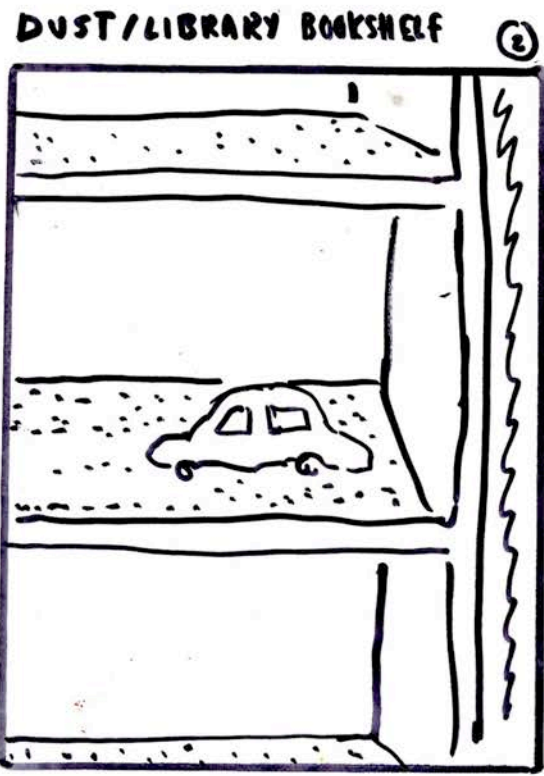

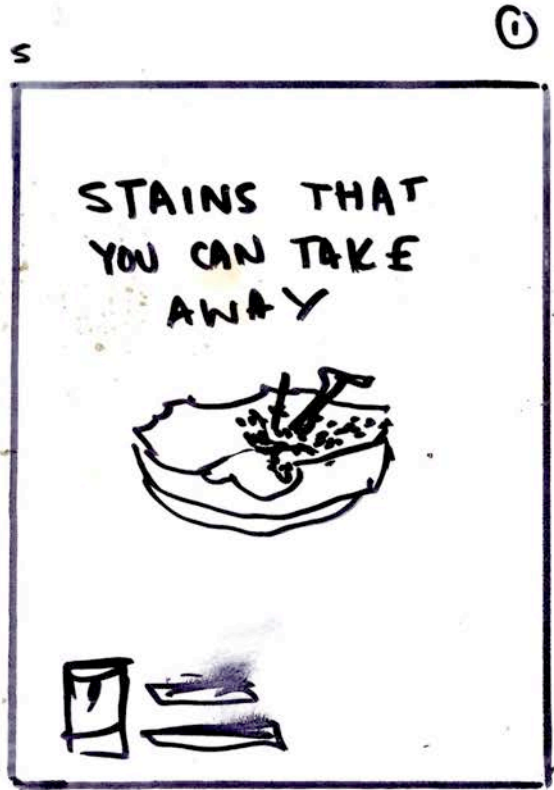

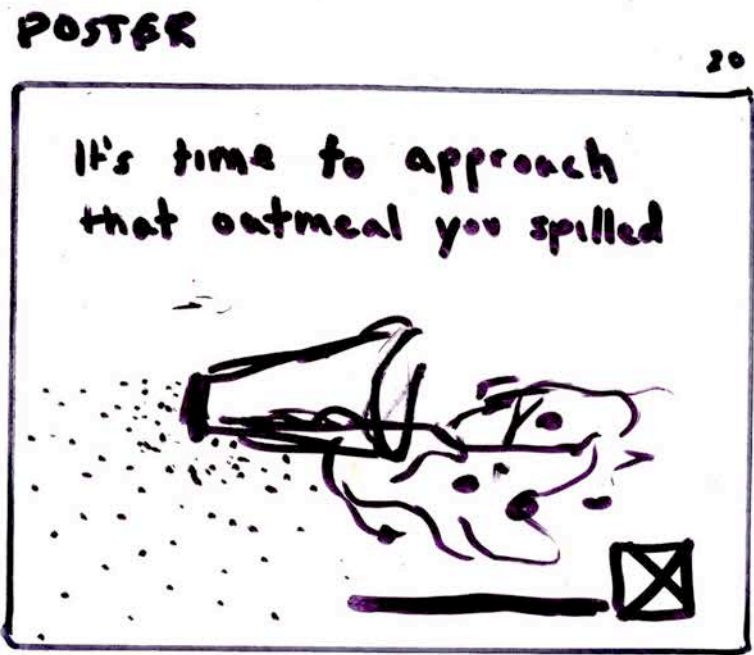

Today, even with so many cleaning products available to help make the job easier – the functional task of spring cleaning may never become effortless - but you can make the emotional aspect of the project more rewarding by appealing to the consumers’ sense of pride and accomplishment.

Dust shelves and accessories, Vacuum and shampoo rugs, clean upholstered furnishings, polish metal hardware, wax wooden furniture, wash windows and screens, clean and wax wooden and non-wood floors, clean bed linens, wipe clean walls and surfaces.

TARGET AUDIENCE: Young mothers

MARKETING OBJECTIVE: Assignment is to create a print ad campaign designed to remind consumers that it’s time for Spring Cleaning and to raise awareness for using the product that you selected to market. The campaign can be single page ads or spread ads.

on candles? How about...

PHOTOGRAPHIC PROCESS

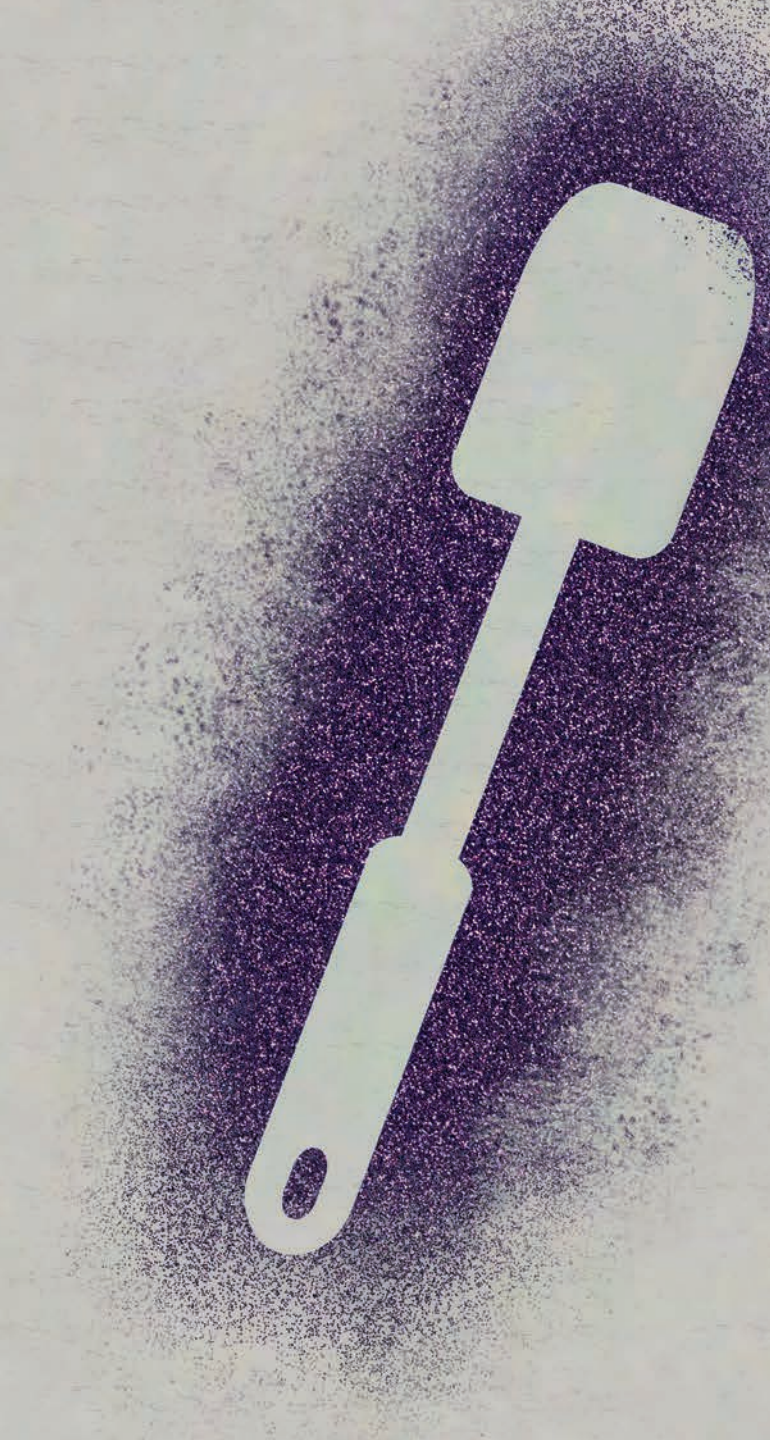

Initially I had visioned a dusty trophy collection for my campaign, however I ultimately realized that I wanted to head in a stronger direction. I began thinking of the dangers in a kitchen, of silverware and appliances that contain bacteria that is necessary in needing to be properly cleaned. I eventually ended up with a kitchen knife, spatula, and a whisk.

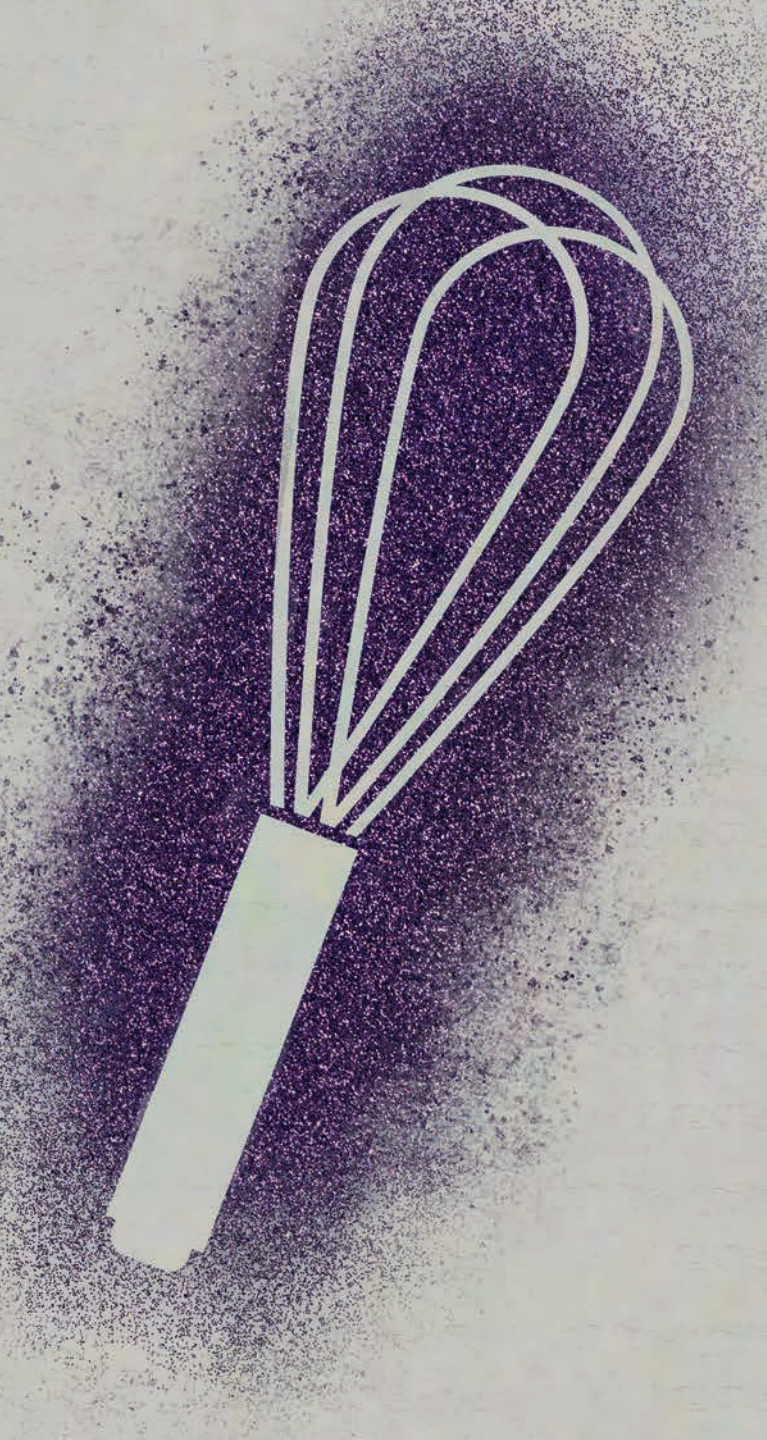

FINAL PRINT ADS

Not all dangers can be seen.
Fight back kitchen bacteria with Clorox dishwasher soap.
